

## Software & Firmware

Solinst always recommends using the latest software and firmware release.

Current releases can be downloaded at any time, free of charge, from the Solinst web site at: <https://www.solinst.com/downloads/>.

Always use the latest Levellogger® PC Software version to install the latest Firmware versions.

**Note:** Solinst always recommends that our customers download the data from their LevelVent loggers, using the same Levellogger Software version they were originally programmed with.

## LevelVent Accessories

Older style Vented Cables (sold before 4/16/21 with serial numbers lower than 506326) are not compatible with newer style LevelVent 5 Wellheads (sold after 4/14/21 with serial numbers 495959 and up) and Loggers (sold after 4/5/21) without a small user modification – contact Solinst for instructions. Newer style Vented Cables are compatible with all versions of the LevelVent Wellheads and Loggers – please note, after the new Vented Cable connector is fully tightened, the external o-ring on an old Logger or Wellhead is visible and it is normal not to seat against the connector. USB PC Interface Cables are compatible with all LevelVent versions.
